

Smallest of 3 numbers

```
#include <stdio.h>
#include <conio.h>
void main()
{
    int num1, num2, num3;
    clrscr();
    printf("Enter three numbers:");
    scanf("%d%d%d", &num1, &num2, &num3);
    if (num1 < num2 && num1 < num3)
    {
        printf("%d is the smallest", num1);
    }
    else if (num2 < num1 && num2 < num3)
    {
        printf("%d is the smallest", num2);
    }
    else
    {
        printf("%d is the smallest", num3);
    }
    getch();
    clrscr();
}
```
