Month Number

```c
#include <stdio.h>
void main()
{
    int mon;
    printf("Input Month No.");
    scanf("%d", &mon);
    switch(mon)
    {
        case 1:
            printf("January\n");
            break;
        case 2:
            printf("February\n");
            break;
        case 3:
            printf("March\n");
            break;
        case 4:
            printf("April\n");
            break;
        case 5:
            printf("May\n");
            break;
        case 6:
            printf("June\n");
            break;
        case 7:
            printf("July\n");
            break;
        case 8:
            printf("August\n");
            break;
        case 9:
            printf("September\n");
```

```c
            break;
    case 10:
            printf("October\n");
            break;
    case 11:
            printf("November\n");
            break;
    case 12:
            printf("December\n");
            break;
    default:
            printf("Invalid Month Number.\nPlease
                    Try again.....\n");

            break;
    }
    getch();
}
```
