C Program to find largest of two numbers

```c
#include<stdio.h>
int main()
{
    int num1, num2;
    printf("\n Enter two numbers! ");
    scanf("%d %d, &num1, &num2);
    if(num1 > num2)
    {
        printf("%d is maximum", num1);
    }
    if(num1 < num2)
    {
        printf("%d is maximum", num2);
    }
    if(num1 == num2)
    {
        printf("Both are equal");
    }
    return 0;
}
```
